Packing Guidelines

シンガポールヤマト運輸

Let's pack!

1. Choosing goods

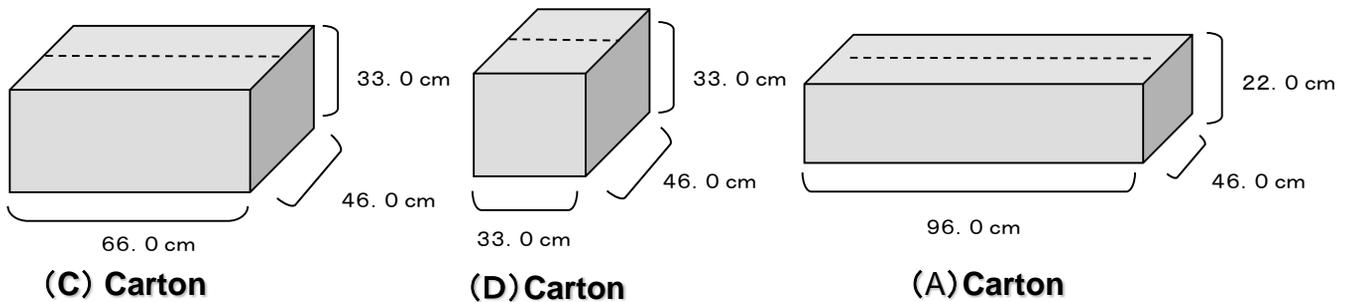

Placing similar items in the same boxes will make it easier when unpacking.

e.g. Summer/winter clothes, goods in urgent need

Please double check if there are any prohibited items on the checklist!

2. Packing boxes and materials

Frequently used boxes

Boxes and materials	Suitable for	Volume weight
A size (92cm x 46cm x 22cm)	Long jackets, umbrellas, suits	16.0 Kg
C size (66cm x 46cm x 33cm)	Light goods (Clothes, toys)	17.0 Kg
D size (46cm x 33 x 33)	Fragile or heavy items (Books, chinaware)	8.5 Kg
Gum Tape	Tape boxes	-
Paper, Bubble wrap	Use for wrapping and cushioning	-

3. Packing fragile/small items

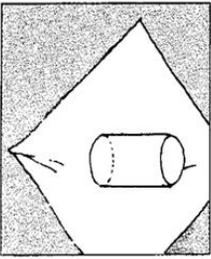

Plates, bowls and glassware should be vertically placed, with the gaps filled by towels, papers or bubble wrap.

You may use the products' original boxes. However if there are spaces in those boxes, you may fill the gaps with either paper or bubble wrap.

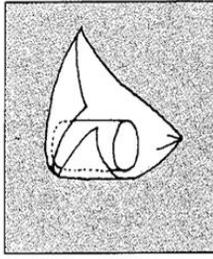

The original boxes for electronics normally come with cushioning/foam so it would be safer to use them.

How To Pack

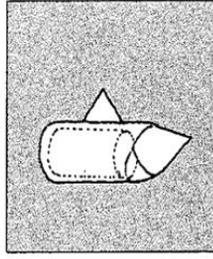

● Kitchenware & Chinaware (Glass/Crockery)

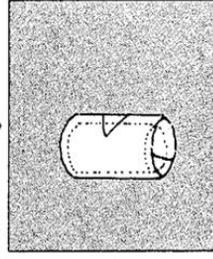

Please put on the bubble wrap.

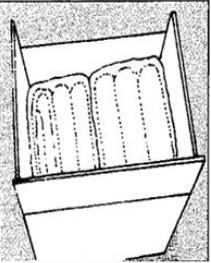

Wrap it with bubble wrap accordingly.

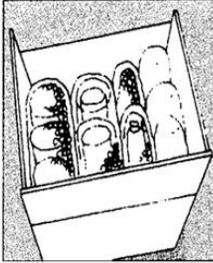

Leave one corner of the bubble wrap unfolded.

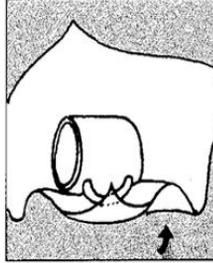

Insert the remaining corner into the item to cover it.

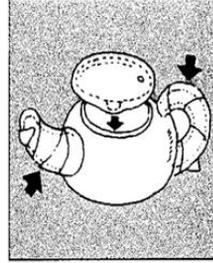

After wrapping plates of similar sizes individually, place some together and wrap with more bubble wrap

For food items that are in bottles, after wrapping them with bubble wrap, please put them into plastic bags and place them in the boxes vertically.

To protect handles or other parts that stick out, please cover them before wrapping the item completely.

Please wrap the stouts and handles of the teapots, as well as turn the lids inward.

Packing Tips

Packing clothes...

Advised to dry under the sun for half a day before placing in box.

Please fill the gaps with paper, bubble wrap or soft items/materials.

Packing liquids...

If you are packing liquids, please put them in Ziploc bags to prevent the other contents from getting wet in case there is leaking.

Packing ornaments/fragile items...

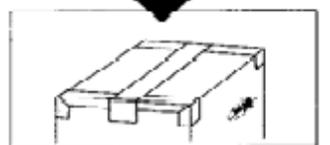

Using tupperware/small plastic containers will protect those items. Please fill the gaps in the containers with papers/tissues.

Other item...

Use towels/soft items to fill the gaps.

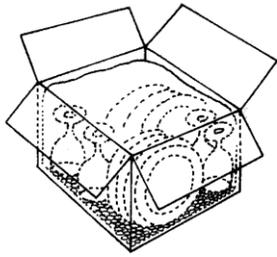

How To make a box

※ Please tape bottom of the box first. After put all items inside box, please tape top of the box.

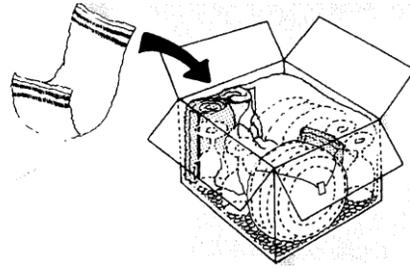

4. Packing the boxes

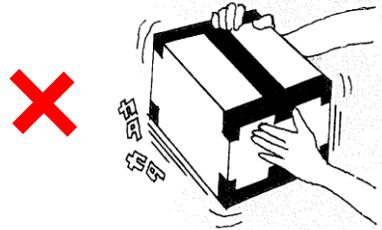

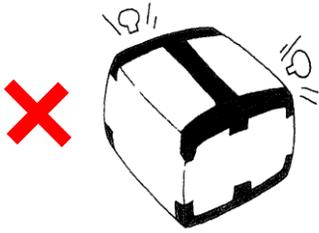

Place bubble wrap top and bottom of chinaware/fragile items.

Fill the side spaces with towels to prevent each item from touching and cracking.

Packed boxes

There is a risk of damage if you pack as is shown in the picture above (putting too much into a box). Please take out some items.

If you shake the box and it makes noise, it means that packing is incomplete. Please re-pack by adding soft items/paper or repack so that there are no more loose items.

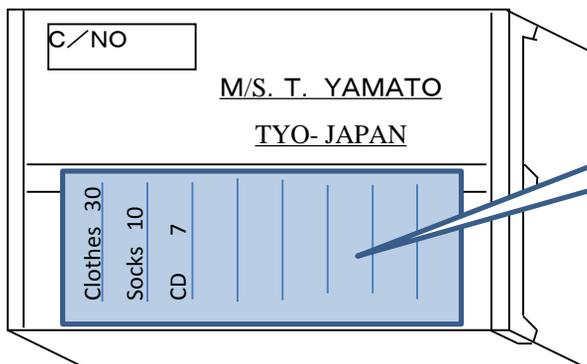

5. Writing the contents on the box

Please list the items and their quantities on the box when you pack by yourself.

Our Japanese staff will write them down on our packing list.

1. Words such as “daily goods”, “souvenirs” or “miscellaneous items” cannot be used as Customs is not able to determine what the content is. Instead, please write things such as “shoes”, “kitchenware” and “rack”.
2. Please let our staff number the boxes. Writing them yourself may result cause some confusion.
3. Some items, such as CDs, DVDs, medicine and cosmetics, need to have specific amounts stated.

You can list your items here!
