COOL BAG

CUSTOMER PROFILE

- ★ A Singapore-based supplier shipping ambient and frozen medical products to multiple Japanese medical institutions.

CHALLENGES FACED BY THE CUSTOMER

- ✗ **Japanese buyers only read Japanese** – requiring orders to be first shipped to the customer's Japan office for manual relabeling.
- ✗ **Dry ice depletion during transit** – staff in Japan needed to repack and refill before delivery.
- ✗ **High cost of** maintaining dry ice inventory in Japan.
- ✗ **Delivery status un-trackable** until the Japan office arranged the last mile.

SOLUTION : SHIPMENT WITH YAMATO

- ✓ **Direct door-to-door delivery with Japanese waybill labels** – eliminates relabeling.
- ✓ **Optional dry ice top-up at Tokyo airport** – ensures frozen integrity without extra handling.
- ✓ **Cost savings** – multiple labeled parcels can be consolidated into one outer carton, reducing dry ice and packing material usage.
- ✓ **Full tracking visibility** – from pickup in Singapore to delivery in Japan.

CONCLUSION

- Streamline your medical and pharma shipments with **Yamato – Japan's most trusted delivery network.**
- 🕒 **CONTACT US TODAY** to discuss your requirements and get a tailored quote.
